July 31, 2007

Mrs. Matoba  
3433 Cook St.  
Denver, CO 80205

Dear Mrs. Matoba:

I am writing you about your sprinkler system that was replaced by EPA as part of the Vasquez Blvd./I70 Residential Soil Cleanup project.

During this project, it was EPA's policy to replace sprinkler systems that were damaged as a result of this cleanup project. For properties that EPA replaced the sprinkler system, a 1 year warranty was provided to the homeowner to assure the system was working properly. These terms were agreed to by the homeowner prior to starting the cleanup.

The cleanup at your property, 3433 Cook St., was completed in 2005. The warranty on your system expired over 18 months ago. Thus, EPA is unable to address any further concerns regarding your sprinkler system.

Sincerely,

A handwritten signature in black ink, appearing to read "Victor Ketellapper", with a long horizontal flourish extending to the right.

Victor Ketellapper
